PROFESSIONAL WIRELESS NOISE-CANCELLING HEADSET WITH DUAL AUDIO MODE

Wireless & Wired Audio

INVINIT SERIES

DUAL MODE
WIRED-WIRELESS

A premium-grade bluetooth headset designed for professionals and executives often engaged in audio/video conferencing at work or home office, the Invinit 6 BT is unique in its **Dual-Mode** design. Supporting both bluetooth and USB connectivity, Invinit 6 BT is perfect for using with smartphone as well as desktop/notebook computers. Connecting any USB-C cable to Invinit 6 BT and a computer instantly charges its battery as well launching USB-audio drivers in both Windows and Mac, completely driver-free. It also supports most smartphone using USB-C connectors via wired-connections, aside from bluetooth wireless mode.

Yet, wide compatibility isn't the only killer feature of Invinit 6 BT. A pair of 40mm HD loud-speakers masterfully tuned for both media consumption and communication, this headset is amongst the best stereo headset designed for business use. Invinit 6 BT also uses the single-chamber microphone housing design, offering superb noise-cancellation required in virtual meetings and conferences. Another unique feature is the eye-catching LED ring which also act as busy-light, blocking unintentional disruption from colleague during conversation. Other amazing features include premium-grade leatherette ear cushions and headband, digital volume control and MFB buttons on the headset using AVRCP profile.
